DONBASS, KARAGANDA, AND KUZBASS MINERS
REPORT 1951 ACHIEVEMENTS AND 1952 PLEDGES

VOROSHILOVGRAD OBLAST MINERS UP OUTPUT -- Moscow, Pravda, 11 Apr 52

Voroshilovgrad Oblast miners report that their 1951 coal output was 8.3 percent higher than in 1950. Labor productivity exceeded that of 1950, 2.7 percent in the Voroshilovgradugol' Combine and 10.2 percent in the Donbassantratsit Combine. The number of faces operating on the cycle work schedule in the Voroshilovgradugol' Combine was 38 percent of the total number of working faces and in the Donbassantratsit Combine, 53 percent.

In 1951, mine constructors of Voroshilovgrad Oblast put into operation five mines provided with outstanding equipment; they completed more than 136,000 square meters of housing and 55 cultural and public buildings, including schools, clubs, hospitals, public eating places, kindergartens, and nurseries.

Voroshilovgradugol' and Donbassantratsit combines make the following pledges for 1952.

1. Completion of the 1952 plan ahead of schedule and delivery of 50,000 tons of above-plan coal per combine, including 20,000 tons of coking coal from the Voroshilovgradugol' Combine.
2. An increase in labor productivity of 6.5 percent above the 1951 level for the Voroshilovgradugol' Combine, and 6.7 percent for the Donbassantratsit Combine.
3. An increase of 180 of the number of faces operating on the cycle work schedule in the Voroshilovgradugol' Combine, and to 125 in the Donbassantratsit Combine by the end of the year.
4. An increase in mechanized loading at faces located in slightly dipping and dipping seams to 12 percent in the Voroshilovgradugol' Combine, and to 14.9 percent in the Donbassantratsit Combine by the end of the year. This will be accomplished by introducing additional mining combines and by raising their productivity.

5. Completion of the plan for capital construction by 21 December.
6. Completion of the 1952 plan for housing and cultural and public building construction by 5 December, and putting into use 22,400 square meters of housing in the Voroshilovgradugol' Combine, and 20,100 square meters in the Donbassantratsit Combine; also, putting into use nine cultural and public buildings in the Voroshilovgradugol' Combine and six in the Donbassantratsit Combine.
7. Delivery of 3 million rubles in above-plan accumulations from the Voroshilovgradugol' Combine, and 3.6 million rubles from the Donbassantratsit Combine. This will be accomplished by lowering production costs of coal and of the products of branch enterprises.

The Voroshilovgradshakhtostroy Combine makes the following pledges for 1952:

1. Completion of the 1952 plan for construction and installation work by 21 December and putting into operation eight coal mines.
2. Completion of the year plan for housing, and cultural and public building construction by 5 December and putting into use 100,500 square meters of housing and 68 cultural and public buildings.
3. An increase in labor productivity of 13 percent above the level achieved in 1951.
4. A reduction in construction costs and delivery of 5 million rubles in savings above the plan by the end of the year.

ROSTOVUGOL' COMBINE MINERS EXCEED QUOTA -- Moscow, Pravda, 19 Apr 52

Rostovugol' Combine miners completed the 1951 plan ahead of schedule, increasing their coal output 6.5 percent above the 1950 level, and extracting hundreds of thousands of tons of above-plan coal. Labor productivity was 7.6 percent higher in 1951 than in 1950.

At present, 193 faces in the combine's mines have been converted to the cycle work schedule; more than ten mines have been completely converted.

In 1951, constructors of the Rostovshakhtostroy Trust put into operation two mines equipped with the latest machinery; they constructed more than 20,000 square meters of housing and 14 cultural and public buildings, including schools, clubs, hospitals, public eating places, kindergartens, and nurseries.

The Rostovugol' Combine makes the following pledges for 1952:

1. Completion of the 1952 plan for coal output ahead of schedule and extraction of 100,000 tons of above-plan coal.
2. Shipment of 150,000 tons of above-plan coal for the national economy.
3. An increase in labor productivity of 3.9 percent above the 1951 level.
4. An increase in the mechanized loading of coal at the mine face of 10 percent above the 1951 level. This will be accomplished by introducing more mining combines and stepping up their productivity.

5. An increase in the number of faces operating on the cycle work schedule to 60 percent of the working faces in the combine by the end of 1952.
6. Completion of the year plan for housing and cultural and public building construction by 5 December, and the putting into use of 16,500 square meters of housing and 11 cultural and public buildings.
7. Completion of the plan for capital investment made by enterprises of the combine by 21 December.
8. Reduction in production costs of coal below the plan and delivery during the year of one million rubles in above-plan accumulations.

The Rostovshakhtostroy Trust makes the following pledges for 1952:

1. Completion of the 1952 plan for construction and installation work by 21 December.
2. Putting into operation of one coal mine and one coal-cleaning plant.
3. Completion of the plan for added housing and construction of cultural and public buildings by 5 December.
4. An increase in labor productivity of 12.7 percent above the 1951 level.
5. Reduction in production costs and delivery during the year of one million rubles in above-plan savings.

KARAGANDA MINERS FULFILL 1951 OBLIGATIONS -- Moscow, Pravda, 13 Apr 52

Karaganda coal miners fulfilled the obligations which they had assumed for 1951, completing the plan for coal output ahead of schedule and increasing labor productivity 12 percent above the 1950 level. In 1951, one new mine, equipped with the most modern machinery, was put into operation. More than 87,000 square meters of housing and 25 cultural and public buildings were put into use. The latter included schools, clubs, hospitals, and public eating places.

The Karagandaugol' Combine makes the following pledges for 1952:

1. Completion of the 1952 plan ahead of schedule and extraction of 215,000 tons of above-plan coal, including 50,000 tons of coking coal.
2. An increase in labor productivity of 7 percent above the 1951 level.
3. An increase in the number of faces operating on the cycle work schedule to 55 by the end of the year.
4. An increase in the level of mechanized loading at mine faces in slightly dipping and dipping seams to 65 percent in the fourth quarter of 1952. This will be accomplished by introducing more mining combines and stepping up their productivity.
5. Completion of the 1952 plan for capital construction by 21 December, and the plan for housing and cultural and public building construction by 5 December.
6. Delivery of 3 million rubles in above-plan accumulations, acquired by reducing production costs of coal and of branch enterprises' products.

50X1-HUM

The Karagandashakhtostroy Combine makes the following pledges for 1952:

1. Completion of the plan for construction and installation work by 21 December, and putting into operation one coal mine, the Beloglinishchevskiy Brick Plant, and other enterprises by the end of the year.
2. Completion of the year plan for housing construction by 7 November, and putting into use 64,800 square meters of housing, of which 50,000 square meters are to be put into use by 31 August.
3. Completion of the 1952 plan for putting cultural and public buildings into use by 5 December.
4. An increase in labor productivity of 7 percent above the 1951 level.
5. A reduction in construction costs and delivery during 1952 of 14 million rubles in above-plan accumulations.
6. The drilling, by high-speed methods, of 4,420 linear meters of mine workings, including 750 linear meters of shaft at an average monthly rate of 25-35 linear meters per month.
7. Construction, by continuous high-speed methods, of 107 dwelling houses with a total floor space of 14,700 square meters.

KUZBASS MINERS REPORT 1952 PLEDGES - Moscow, Pravda, 17 Apr 52

The Kuzbassugol' and Kemerovugol' combines make the following pledges for 1952:

1. Completion of the 1952 plan ahead of schedule and extraction of 200,000 tons of above-plan coal, including 50,000 tons of coking coal, by each combine.
2. An increase in labor productivity of 6 percent above the 1951 level for the Kuzbassugol' Combine and 7 percent for the Kemerovugol' Combine.
3. An increase in the number of faces operating on the cycle work schedule to 265 for the Kuzbassugol' Combine and to 100 for the Kemerovugol' Combine.
4. An increase in the level of mechanized loading at mine faces in slightly dipping and dipping seams to 36 percent for the Kuzbassugol' Combine and to 55 percent for the Kemerovugol' Combine. This will be accomplished by introducing additional mining combines and stepping up their productivity in the fourth quarter of 1952.
5. Completion of the plan for housing construction by 5 December.
6. Completion of the plan for capital construction and cultural and public building construction by 21 December, and putting into use 15 cultural and public buildings for the Kuzbassugol' Combine and nine for the Kemerovugol' Combine.
7. Exceeding the plan for reducing production costs of coal and the delivery of 6 million rubles in above-plan accumulations, 3 million rubles by each combine.
